TAXPAYERS' REPORT

At this week's Commission Meeting we covered several items. We received from the County Treasurer, the financial position of Sheridan County for the period ending June 30, 2021. The statement shows a strong cash position with good balances in the various accounts. This is part of the work the Commissioners are working on in formulating the amount of tax levy we will decide is adequate for next year's 2022 Budget to fund all operations of the Sheridan County Government.

This budget process will need to be completed by the end of August. The Kansas Legislature passed legislation this year that requires our Tax Levy in dollars to be the same as last year. If we want to tax more than last year, then we are required to publish a hearing to invite the taxpayers to give their input as to how much tax is appropriate. I don't believe that this procedure is necessary, nor do I believe it is appropriate. With the strong cash position that we have in Sheridan County, I believe that we should absolutely NOT raise the taxes...AND, we should *absolutely* lower them another half million dollars, as we did at this time last year.

There is widespread disenchantment across Kansas, as well as many parts of the United States, where property taxes have become intolerable and are destroying the local economies. People need housing that is affordable, as well as people need employment.

The commercial property tax rate is almost three times higher than the residential property tax. It is commercial property that creates most of the jobs available for employment. A thriving economy requires affordable property tax where people live and where people work. These work hand in hand to create a thriving and prosperous town, which leads to thriving schools, hospitals, and businesses.

Remember, the Power to Tax is Also the Power to Destroy!!!

The real problem with Property Taxes is that it is the killer of the incentive to strive to improve your life experiences. Build a larger and nicer house, then get hit with a big Property Tax Bill. Build on to your business that will create more jobs and employment, then get hit with a big Property Tax Bill. Our tax dollars, here in Sheridan County, doubled from 2010 to 2020! It is time to put the brakes on!

Thanks for reading and GOD Bless!

WES BANTER, Sheridan County Commissioner

Travis Johnson Throws First Pitch

Michael Schaffer and Schaffer & Associates sponsored the Hays Larks Saturday, July 10. Travis Johnson enjoyed the opportunity to throw out the first pitch as the representative for Schaffer & Associates. He is the son of Heath Johnson, an Associate Financial Advisor with Schaffer & Associates. In the photo with Travis is Brock Lummus, a catcher and first baseman for the Larks. The Larks are celebrating 75 years in Hays and provide a wonderful venue for baseball fans to enjoy a game. Local businesses sponsor the games, which allows fans to attend for free.

Main Street Arts Council Prepares for Disney's Aladdin Jr.

By Levi Gleason, Tomahawk Editor, Sentinel Staff Reporter

Hello everyone! This week, Monday, July 12, *The Sheridan Sentinel* was invited to watch the dress rehearsal for the Main Street Arts Council's production of "Disney's Aladdin Jr.". Bonnie Cameron is the musical's director; she is a former Hoxie Jr-Sr High School student and has directed many plays and musicals since her start as the Founder and Creative Director of the Main Street Arts Council. The "Aladdin Jr." musical is to take place Saturday, July 17, at 8:30 PM and will be located at the Hoxie Jr-Sr High School Auditorium.

Now that we have the specifics out of the way, let me talk about what I observed yesterday. When first walking into the High School Auditorium, I saw smiles and heard nothing but laughing and excited chatter. After I was seated, and people finished arriving, they started. Something that immediately caught my eye and pulled me in was the absolute diversity in the cast, from age to social class. While there were many younger children within the cast, the rehearsal still went very smoothly, and everyone involved seemed to truly care enough to listen to directions and act extremely mature for their ages. While I will not spoil how the show itself was, I will say that I absolutely enjoyed every second of it.

After the rehearsal concluded I asked Bonnie Cameron some questions.

Q: Why did you chose Aladdin?

A: We had originally planned on doing "Disney's 101 Dalmatians" in Hoxie, but we had such great auditions this year, and I had way too much talent to fit into "Disney's 101 Dalmatians" and I thought we could just do Aladdin, because I had all the characters. We had planned on doing that in Quinter, but we did not have all the needed cast for it, so we had to make some changes.

Q: How have rehearsals gone so far this year?

A: It has been a crazy summer, but we got through half the show tonight and will do the other half tomorrow, and then we will start full run throughs on Wednesday. I think we are in a good place, and I think everything is going to come together beautifully.

Q: What has been your favorite moment while working with the kids on this musical?

A: There is so many, you know, I think I get very excited. We have a group of girls who act as Aladdin's best friends consisting of Viley Pridey, Gentry Rhodes, and Adison Shipley. These three little girls are so talented and have great big voices. So, when we put the harmonies together, they sounded amazing, and had beautiful big voices and are just an amazing little group of girls.

I also spoke with a few of the interns and asked about their experience working with the children. Their responses were all along the lines of: I enjoyed working with the kids, it has been a blast, etc.

At the end of the day, what I saw was amazing, and I am beyond excited for the performance on Saturday. I hope to see you all there! We can surely give this performance the same amount of energy we give sporting events, right? I think so!

Bell, Derek Johnson, D.J. Knox, and Matthew Rodriguez will wrestle Freestyle and Greco-Roman disciplines competing for Team Kansas and representing the Next Level Training Academy program.

THANK YOU

A little over a month ago on May 24, Mother Nature paid a visit to our little town by way of a tornado. The immediate response from our county law enforcement, fire department, EMT's, Emergency Management and surrounding county law, fire departments, EMT's and Emergency Management was incredible. It put a lot of people at ease knowing that support would show up so quickly.

The next morning when the volunteers starting showing up before 8:00 am to begin the clean-up, was another great demonstration of what this country is all about.

In the days that followed the food, equipment, and monetary donations was even more unbelievable.

We heard from people as far away as California because they had once lived here. All the heartfelt notes make us believe that there is so much good in this world.

THANK YOU is not enough, but please know that whether you said a prayer for all involved, brought food, or sent a monetary donation it is so much appreciated.

NEWS from the OUTSIDE with John Liester

Welcome to another episode. The last two weeks have been busy. Trying to get all the honey-do's done, plus two other jobs keeps a guy hopping. But, as it's been said, idle hands are the devil's tools!

Fishing has been very good. I've been to Webster three times in the last two weeks and have caught good numbers of white bass every time. I only keep them if they're over twelve inches long. I still ended up with several quart bags of fish! I'd go again this weekend but have a golf tournament to help with. I might squeeze in a trip to Antelope Lake Thursday or Friday evening. We'll have to see what's going on. In my world nothing is for certain.

Can you believe it? Hunting season is less than two months away! The only issue I see could be getting ammo. I have several vendors that I am looking to, so if I can get it, I will let our customers know. It's been rough but is getting better. I just ask my readers to beware of price gougers! There are a lot of unscrupulous dealers out there charging up to five times retail. You know, if people wouldn't buy their product, the prices would come back down. I still haven't figured out the hoarding thing. Just how much ammo can you shoot in a lifetime?

I have a ton of things to write about regarding Washington, but time limits me here. I will say hats off to the governor of Texas. The Democrat congressmen from Texas left the state to stop a vote for needed voting changes. So, he is using the law to fix the problem. When they arrive back in Texas they will be arrested! I say go one step further and throw them out of office. More and more it becomes obvious that Democrats do not have anyone's best interest in mind. Just the destruction of this country. It's time they get their just desserts.

Until next time, stay safe and enjoy the outside.

THANK YOU

The family of Maxine Shipley wish to thank you for the prayers, food, flowers, memorials and kind words expressed to our family.

A special thanks to the doctors, nurses, hospital and Long Term Care staff for their loving care of our Mom.

Thank you, Father Vincent, for the beautiful Mass and the Sodality for the wonderful meal, and Mickey-Leopold Funeral Home for the caring help with the arrangements.

Thanks and blessing to all. ~Maxine Shipley Family

Two New 4-H Program Assistants for Twin Creeks

Patsy Maddy, 4-H & Youth Development, Twin Creeks Extension District

Alyssa Rippe-May, Livestock and Farm Management Agent, Interim Director, Twin Creeks Extension District

Our K-State Research and Extension Twin Creeks District is excited to announce the hiring of two new 4-H Program Assistants. Dana Geisinger will be based in the Sheridan office and will focus on both the Sheridan and Graham County 4-H programs. Molly Maddy will be based in the Decatur office and will focus on both the Decatur and Norton 4-H programs. In addition to helping coordinate local 4-H programs and activities, both assistants will provide increased youth programming opportunities, open to all youth in our communities.

Many of you may already know Dana Geisinger, as she previously worked for the Twin Creeks District - Sheridan office as an office professional. But Dana has years of experience with Extension and 4-H, as she is both a 4-H parent and a club leader. Dana's three kids have all been active members of the Sheridan County 4-H program for the last 13 years, 5 of which she has served as a club leader. Dana's states, "My passion for 4-H is very strong and it has been a great joy to see the many skills youths gain from being a member of the 4-H Program. I am definitely looking forward to working alongside the Twin Creeks District Agents to show the communities what 4-H has to offer!" Dana is a lifelong resident of Sheridan County where she resides with her husband, Jason, and their three kids.

Molly Maddy, another familiar face, is originally from Norton County where she grew up on a farm with five older siblings. She was a member of the Busy Jayhawkers 4-H Club and participated in a variety of projects from Swine to Arts and Crafts. Her 4-H roots sparked her passion for community service, families, and leadership which led her to Kansas State University. While there, she majored in Human Development and Family Science, where her passion for helping others only grew. Following in her mom's footsteps (another familiar name you may know, our own 4-H & Youth Development Agent Patsy Maddy), she began a career in Extension working for Johnson County Extension as a 4-H Program Assistant. Molly states, "I am happy to come back to Norton and Decatur to grow the program that gave so much to me!"

Here at Twin Creeks, we're thrilled to bring these two experienced and passionate ladies into our offices. If you have any questions about the local 4-H program or how to get involved, please contact any of our Twin Creeks Extension District Offices.

Compiled by Rachel Farber, Archive Director

The Hoxie Democrat Friday, July 15, 1887

Sheridan county S. S. convention will be held in the Presbyterian church at Hoxie, July 30 and 31. Program of exercises will be published next week, to which we wish careful attention; and for which we cordially invite a full attendance. Entertainment will be provided by the citizens of Hoxie for the S. S. delegates from a distance.

Judge Wanzer is a dandy.
Ben Cissna has left for Colorado.
Wright was all right on election day.
Fred Fitch was up to the blow-out Wednesday evening.

Charlie Young was taking in the town a few days this week.

O. F. Ellithorpe has the dandy desk in the hotel office. Go and see it.

Harry Thompson drove all night to get home to vote for the bonds.

Uncle James Grinnell is building a large barn on his place east of town.

Jacob Schroth was turned loose by the justice there being no cause of action.

M. A. Chambers, C. E. Snow and Henry Ellithorpe are taking in Oberlin this week.

Ira C. Bowen walked ten miles last Tuesday evening to hear the elections returns.

E. W. Payro is a new windmill man who has located here. Go and see him when you want a mill.

Mr. Robt. Yates lost a very valuable mare last Tuesday evening by being struck with lightning.

Emery Williams was in town Wednesday with a banner bearing the motto, "Our motto is railroads."

George Shaw is always found in the front. No one worked harder or did more of the bonds than he did.

Cutler Wilkins, nephew of C. E. Snow, will make Hoxie his future home and stay in the store with Charlie.

W. A. Llewallen was in the city this week. He is the same old boy and is fond of fun. He now runs the Palmer house at Oberlin.

C. W. Johnson will start next week for an extended trip to Colorado. On his return he and his family will go to Nebraska to visit friends.

Jurgen Harms will have one of the best houses in Sheridan county when completed. Two stories with an L. B. Zerkle is doing the work.

Mrs. R. H. Talbot was severely hurt last week while trying to lead a calf. It got scared and ran throwing her violently to the ground and bruising her head badly.

A. Pratt presented this office with a mess of cucumbers, the largest of which measured 8 ¾ inches in length and 7 inches in circumference. Abraham is one of Sheridan county's best farmers and gardeners, and when he has anything good never forgets the poor printer.

Hoxie has more good driving horses to its population than any town in the west.

125 Years Ago July 23, 1896

Miss Ella Hill, of Studley, is visiting in the city. Ruf Trimble was down from Selden again last Sunday.

Herry Alberts is preparing to grow his own strawberries. He bought a lot of plants of J. C. Hoffeditz the first of the week.

Dolph Rowilson reports that the Cooper boys harvested 133 acres of wheat in three days last week. How is that for getting over the ground.

J. B. VanZandt's horse took a run around town with the cart hitched to him last Tuesday forenoon, a little damage to the cart and harness was the result.

A number of the alfalfa growers of this county are talking of going into the bee business. Why they haven't done this long ago is a question we have often asked without receiving a satisfactory reply.

J. L. Cook, editor of the *Gove County Gazette* is asking the republicans for the nomination for representative and says he can be elected.

A Bold Holdup Staged in Hoxie Monday Night

Monday night while two young harvest hands were asleep in the Keller barn on the Lupton ranch, robbers entered the barn and demanded that the harvesters hold up their hands. They were probably half asleep and didn't instantly obey, when one was slugged and rendered unconscious.

The robbers secured \$60 in cash from the young man they slugged and the other boy was compelled to give up his gold watch and \$2.50 in cash.

So far the guilty parties haven't been apprehended, and as they are all strangers it will probably be hard for the officers to get trace of the holdup men.

H. L. Pugh, who spent the Fourth here with relatives and friends received the sad message, on his return to Salina, of the death of his father, who lived in the state of Missouri.

Rickel, grain merchant, of Salina, and was on his way to Colby to take charge of branch office business and manage the local elevator there. He is remembered and well known by many people here. He told us that he hoped to have the opportunity to buy some wheat out of good old Sheridan county.

F. L. Kirby was a pleasant caller at our dump Friday. Mr. Kirby just recently finished marketing his 1920 wheat crop, and while he is disappointed in the price he received, yet he was mighty glad that he had contracted it some weeks ago, as he received \$1.35 for it which is considerable above the present market price.

Just then the lieutenant shouted: "Camouflage Company, dismissed!"...and all the trees walked away.

Safe Kids Kansas Protects Infants

Coalition Supports Safe Sleep for Kansas Infants

Safe Kids Kansas is a recipient of the Barclay-Giel seed grant program from the PHS Commissioned Officers Foundation for the Advancement of Public Health (COF). The grant provides the coalition support for safe sleep education, including 100 portable cribs and wearable blankets for low-income families. Through a partnership with the Kansas Infant Death and SIDS (KIDS) Network, these portable cribs and wearable blankets were distributed.

Safe Kids Kansas partners with organizations, such as KIDS Network, hospitals, health departments, and state agencies, to reach families identified as at-risk for infant death due to unsafe sleep environments and practices. The program reaches families with education based on the American Academy of Pediatrics (AAP) Safe Sleep recommendations and provides resources to help ensure a safe place for their baby to sleep. KIDS Network Certified Safe Sleep Instructors provide standardized safe sleep training for families and caregivers through Community Baby Showers and Crib Clinics.

In Kansas, the Kansas Child Death Review Board reports that of the 43 sleep-related infant deaths in 2018, 86% occurred when the infant was sleeping in a place other than a safety-approved crib or bassinet, and 65% were bed-sharing or couch-sharing.

EPA Requested to Hold All States to Emissions Rules

Kansas Attorney General Derek Schmidt yesterday urged the U.S. Environmental Protection Agency to refrain from reinstating California's waiver under the Clean Air Act which gives that state, and only that state, the authority to regulate which cars the rest of the nation drives.

Schmidt and the attorneys general from 15 other states sent a letter yesterday to EPA Administrator Michael S. Regan urging the agency to continue the policy under the Safer Affordable Fuel-Efficient (SAFE) Vehicles Rule. The letter argues that the U.S. Constitution recognizes the states as equals and does not give California special rights denied to every other state.

Under the Clean Air Act, the prior administration created national standards for vehicle carbon emissions for model years 2021 through 2026, treating all states as equal sovereigns subject to one federal rule. Recently, the Biden Administration proposed that California, and no other state, should be given a "waiver" from national carbon emissions standards and allowed to set its own standards. The waiver, designed decades ago to allow California to manage its severe smog problem, has instead been used by California to target fuel efficiency and global warming.

The letter sent by the attorneys general makes clear that any attempt to restore California's waiver is unconstitutional and causes harm to non-Californians, needlessly driving up the costs of new vehicles and allowing California to exercise power denied to every other state.

"In this great union of sovereign states, the Golden State is not the golden child," the attorneys general wrote.

Kansas Nonprofits Encouraged to Apply for Kansas Bar Foundation IOLTA Grants

Nonprofit organizations in Kansas may be eligible for grants from the Kansas Bar Foundation (KBF) from its IOLTA (Interest on Lawyer Trust Accounts) program. IOLTA distributes approximately \$100,000 each year to organizations that support law-related educational projects and programs that support access to justice for low-income Kansans.

Eligible groups can apply for 2022 Grants in the areas of Civil Legal Services, Law-Related Education and Administration of Justice by visiting www.ksbar.org/mpage/kbf-grants. The deadline for 2022 proposals is September 3, 2021; recipients will be notified in late fall.

Past IOLTA grant recipient, Julie Grabbe, an attorney from Hays, described how the funding has benefited her organization: "We want to express our heartfelt thanks to the Board of Trustees for the generous grant so that we may provide these services and be part of the solution. We believe with your assistance we can effect the change that is necessary to help tip the scales of justice back into balance. Without equality, true justice cannot exist, and true justice is necessary for a thriving successful society."

Individual client legal trust accounts are often such a small amount or held for such a short period of time that any interest generated would be less than the cost to set up and administer the account. Upon the creation of the IOLTA program in 1984, the KBF and Kansas bankers can now pool the interest from these accounts together to generate significant revenue for law-related charitable projects. A list of KBF bank partners can be found here: www.ksbar.org/mpage/IOLTA-institutions.

For over 60 years, the KBF has funded opportunities for the citizens of Kansas for charitable and educational projects that foster the welfare, honor and integrity of the legal system by improving its accessibility, equality and uniformity, and by enhancing the public opinion of the role of lawyers in our society. It has awarded more than \$4 million in IOLTA grants since 1984 for law-related educational programs and to provide legal services to those who cannot afford them. For more information about the KBF, visit www.ksbar.org/kbf.

USDA Implements Sens. Moran, Bennet's Small Meatpackers Assistance Legislation

U.S. Secretary of Agriculture Tom Vilsack announced the U.S. Department of Agriculture (USDA) will be reducing inspection overtime fees for small and very small meatpackers by implementing U.S. Senator Jerry Moran (R-Kan.) and Michael Bennet's (D-Colo.) legislation, the Small Packer Overtime and Holiday Fee Relief for COVID-19 Act, to support small meatpacking plants that were operating longer hours during the COVID-19 pandemic and continue to process a high number of livestock to meet increased consumer demand for locally-grown meat products.

"Small meatpackers in Kansas and across the country have been working long hours to keep our meat supply in stock during the pandemic," said Sen. Moran. "Unfortunately, the USDA Food Safety and Inspection Service charges meatpacking plants a fee for overtime hours for food inspectors, discouraging smaller packing plants from extending operating hours. I am pleased the USDA is implementing our legislation to remove cost-prohibitive barriers so our small packers can keep working, ranchers can harvest their livestock and Americans can have access to quality food."

"The COVID-19 pandemic hit our food supply chain -- from producers to our essential workforce -- incredibly hard," said Sen. Bennet. "That's why Senator Moran and I introduced a bill to reduce burdens on small meatpackers who continue to step up and run overtime, which can expand local options for ranchers to harvest their livestock. I was glad it passed as a part of the American Rescue Plan and appreciate Secretary Vilsack's work to implement the legislation and reduce costs for small meat, egg, and poultry processors."

The USDA Food Safety and Inspection Service (FSIS) charges meatpacking plants a fee for overtime and holiday hours paid to food inspectors. This program will provide \$100 million in funding to FSIS to reduce fees charged to small meatpacking plants when they request overtime and holiday inspection services. USDA FSIS inspectors will continue to be fully compensated for any overtime hours they work.

Meatpacking plants with fewer than 10 employees will be required to pay 25 percent of overtime and holiday fees and FSIS would pay the remaining 75 percent. Plants with 10-500 employees will be required to pay 70 percent of overtime fees with FSIS paying the remaining 30 percent.

The overtime fee reduction will be applied retroactively to October 11, 2020, to help cover costs incurred during the pandemic. FSIS has developed an Overtime/Holiday Rate Reduction form that official establishments will need to submit to request an overtime or holiday inspection fee reduction. FSIS will review the form to determine whether an establishment qualifies for the fee reduction.

In March, Sens. Moran and Bennet joined U.S. Representatives Dusty Johnson (R-S.D.) and Angie Craig (D-Minn.) to urge Secretary Vilsack to prioritize implementing this legislation which passed as part of the American Rescue Plan.

Kansans May Be Entitled to Compensation Through Moneygram Settlement

Kansas consumers who sent money to scam artists through MoneyGram between 2013 and 2017 may be eligible to receive compensation, Kansas Attorney General Derek Schmidt said.

The funds come from a \$125 million administrative forfeiture from MoneyGram as part of an agreement with the U.S. Department of Justice and the Federal Trade Commission filed in 2018. That agreement came after a similar agreement in 2012, when MoneyGram agreed to implement a new fraud interdiction system. However, that system ultimately proved ineffective, and MoneyGram failed to block a substantial number of transactions associated with entities they previously identified as receiving fraudulent transactions.

MoneyGram did not disclose the system's weaknesses to the U.S. DOJ and instead portrayed the increase in fraudulent transactions as being related to external circumstances. An investigation by the U.S. Postal Inspection Service found that scam artists posing as family members in need, law enforcement officials, the IRS, and conducting other schemes, directed consumers to send money through MoneyGram during this time. MoneyGram admitted that it processed at least \$125 million in additional fraudulent transactions.

Individuals who believe they sent money to a scammer through MoneyGram between January 1, 2013, and December

Sen. Marshall Statement on Meat Labels and President Biden's EO

U.S. Senator Roger Marshall, M.D. released the following statement after the White House issued an Executive Order directing USDA to consider issuing new rules defining when meat can bear 'Product of USA' labels.

"I am fully supportive of ensuring that meat labels are clear and accurate for consumers. The current 'Product of the USA' label for beef does not convey accurate information to consumers and fails to help American ranchers distinguish their product in the meat case. I believe multiple new voluntary labels such as 'Processed in the USA' and 'Born, Raised, and Processed in the USA' should be developed to help U.S. ranchers differentiate the wholesome, safe, and nutritious beef they raise," said Senator Marshall.

More information regarding the remission process, including eligibility criteria, updates, and frequently asked questions is available at the remission website or by calling 1-844-269-2630. The remission administrator will not ask for any payment in order to participate in this remission process. The U.S. Postal Inspection Service is leading the remission effort.

The process is similar to effort used by the Office of Attorney General to help Kansans recover \$3.9 million from fraudulent transactions

U.S. D.O.E. Releases \$29 Million for Kansas Special Education

The U.S. Department of Education on Thursday released \$3 billion in dedicated funding to address the special education needs of infants, toddlers and students with disabilities. Kansas schools will receive \$29.4 million of that allocation for its students who are served by the Individuals with Disabilities Education Act (IDEA), the federal law governing special education programs.

The funds were contained in the American Rescue Plan (ARP) law enacted this past March. The \$29 million in Kansas will supplement the federal government's IDEA Part B grant to the state; Part B funding for preschool children aged 3-5; and IDEA Part C funding for infants and toddlers.

made through Western Union services. In November 2017, Schmidt announced a landmark legal settlement with Western Union that required the company to provide refunds to Kansans who could prove they lost money to a scam and used Western Union wire services to send money to the scammers. The settlement, which was reached by Kansas alongside other states and the federal government, resolved allegations that the company had willfully turned a blind eye to the use of its services to defraud people.

Hoxie Swimmers
Qualifying Meet in McCook

By Levi Gleason, Tomahawk Editor, Sentinel Staff Reporter
This past Saturday, July 10, The Hoxie Hammerheads traveled to McCook Nebraska to compete in this year's league qualifying meet. There was a total of seven towns that competed. These towns consisted of: Hoxie, Arapahoe, Cambridge, Frontier Co., Gothenburg, Indianola, and McCook.

For those of you who are not aware, qualifying is the meet that determines if you go to championships or not. With our system you qualify automatically if you place top two within an event at the qualifying meet, and with four different qualifying meets in the league, it adds up to eight total kids who can qualify. After those eight are selected there will be eight more kids who qualify, these will be the next eight fastest kids in the league who did not automatically qualify.

Below is a list of each athlete that qualified, and what they qualified in:

- Adison Shipley; 100m Long Freestyle, 50m Freestyle, 50m Individual Medley
- Levi Gleason; 200m Freestyle, 100m Freestyle, 50m Short Freestyle
- Regina Baldwin; 50m Butterfly, 100 Individual Medley
- Addison Bieker; 50m Butterfly, 50m Short Freestyle, 100m Individual Medley

- 100m Freestyle Relay; Addison Bieker, Regina Baldwin, Hilde Heskett, Campbell Scanlon

Every athlete no matter their sport knows the stress of a: qualifying/regional meet, if you are not at your best the day of, things can easily go wrong, and quite often do. Something that we see a lot with all Hoxie sports teams is a family like atmosphere, and our swim team might just be one of the best examples of that. Through-out the meet you can always find the swimmers cheering for each other as they compete, being there afterwards to congratulate them, and even being there to comfort them if they did not quite perform how they should have.

Next week will be the last week of the Hoxie Swim Season, and well, it was a fun one. Championships will take place on Saturday, July 17. Good-luck swimmers, and we all look forward to seeing how you do at this year's final competition.

Lady Indians Host Basketball Camp

By Levi Gleason, Tomahawk Editor, Sentinel Staff Reporter

Last week, or the week of July 5, the Lady Indians Basketball Team and their Head Coach, Easton Slipke, hosted a basketball camp for grades K-8. This camp consisted of activities, drills, and competitions all aimed to help better the athlete's performance in the sport while also allowing them to have fun.

While I was not able to attend each awards ceremony, I did make it to one. From the second I walked in I saw smiling faces and heard laughing kids, they seemed to be having the time of their lives. Every kid, no matter the award they won or the candy they got, seemed to have had an amazing time.

It is things like this, and events like this that make Hoxie stand out from any other small town in Kansas. The effort that others put into helping community members is astonishing. Thank you, Lady Indians, and thank you Easton Slipke for giving our younger athletes the chance to improve their skill and have fun!

Legendary 150 Horse Case
Road Locomotive in
Antique Farming Show

Tri-State Antique Engine and Thresher Association announces the addition of the legendary 150 Horse Case Road locomotive to this year's lineup for their annual show.

Rural and urban residents across Kansas and the surrounding region will want to save the weekend of July 29-31, 2021, to experience farming practices powered by wood and coal, as they were one hundred years ago. Along with fourteen steam traction engines housed permanently on the show site at Bird City Kansas, Tri-state Antique Engine and Thresher Association has secured the one-of-a-kind Case 150, a replica of the largest traction engine in the world for this year's show. The engine was hand-built by Kory Anderson of Andover North Dakota and culminates a lifetime dream. Kory was just 10 years old when he met George W. Hedtke, who at the time owned the only surviving piece of a 150 CASE, the original boiler for the first prototype. Inspired by the stories George and others told about the legendary 150 CASE and seeing the only remaining part of this iron giant. After over ten years of preparation and research, actual construction was started in 2016. The team of foundry workers, friends, mentors, and dad, Kevin Anderson, all coming together on this monumental project were able to complete the build of the engine in just 16 months.

Activities and opportunities for public participation are being planned featuring belt horsepower testing along with threshing, sawmill, feed grinding, and corn shelling, all powered by steam. Field space has been reserved to demonstrate a large multiple bottomed plow. A special banquet is planned for Saturday evening, July 31, where Kory will tell the story of how he designed and developed his steam engine. Banquet tickets are available by contacting Rod Klepper at (785) 734-7369

Be watching for further news about this exciting event. Information can be found on the Association website www.threshershow.org.

Sorghum Crop Progress Report

The U.S. Department of Agriculture Weekly Crop Progress Report says July 4, twenty-two percent of the nation's sorghum had reached the headed stage, 2 percentage points behind last year and 3 points behind the 5-year average. With progress limited to Texas, coloring advanced to 14 percent, 1 percentage point ahead of last year but equal to the average. 72 percent of the nation's sorghum was rated in good to excellent condition on July 4, two percentage points above the previous week and 24 points above the same time last year. There have been significant rains in parts of Texas the past week, and our thoughts are with our South Texas producers who have experienced flooding conditions.

KDA Announces 2021 Ag Summit

The Kansas Department of Agriculture (KDA) will host the state's agriculture community in person for its sixth annual Kansas Governor's Summit on Agricultural Growth on Thursday, Aug. 26, in Manhattan.

The 2021 Ag Growth Summit will be a blend of in-person events and online meetings. The main event will be held at the Manhattan Conference Center with in-person attendance highly encouraged. For several weeks prior to the Summit, a series of virtual sector breakout sessions will lead up to the Aug. 26 main event.

A full schedule of the sector breakout sessions, along with registration links for each individual Zoom meeting, can be found at www.agriculture.ks.gov/Summit.

The Summit will culminate with the main event in person on Aug. 26 — a day of meaningful discussion about the future of Kansas agriculture. Attendees are also invited to participate in a social event on the evening of Aug. 25, also at the Manhattan Conference Center.

There is no cost to attend any of the Ag Growth Summit meetings or events, but it is important that attendees register to get login information for the virtual sector breakout sessions and so KDA can provide adequate materials for attendees and have accurate meal counts. Registration has begun for the Summit and for sector breakout sessions at www.agriculture.ks.gov/Summit, along with additional information including agendas and overviews of the ag sectors.

If you have questions about the 2021 Kansas Governor's Summit on Agricultural Growth, please contact Brittney Grother at Brittney.Grother@ks.gov or 785-564-6797.

President Signed EO to Increase Competition in Agriculture Industries

President Joe Biden signed an executive order requiring the U.S. Department of Agriculture to engage in a series of rule makings to “increase competition in agricultural industries, to boost farmers’ and ranchers’ earnings, fight back against abuses of power by giant agribusiness corporations, and give farmers the right to repair their own equipment how they like.” While there are not many particulars in this announcement, it has certainly captured the attention of everyone in agriculture. Right to repair has become a hot-button issue as agricultural equipment, and all the relating intellectual property, has become more complex. National Sorghum Producers will continue to monitor this issue.

Politico: Biden Wants to Pay Farmers to Grow Carbon-Capturing Crops... It's Complicated

In an article released this week, Politico outlines the Biden Administration's efforts to achieve its goal of paying farmers and ranchers to help mitigate climate change. “Six months into the administration, officials have yet to unveil their plan. That’s in part because it’s logistically complex and difficult to make the economics work: While corporations are eager to buy credits that pay farmers to pull carbon dioxide out of the air and into their soil, the credits aren’t yet lucrative enough to entice enough farmers to rethink how they grow crops to maximize capturing carbon.”

Ernst, Braun, Grassley Introduce Bill to Define WOTUS

Sens. Joni Ernst (R-IA), Chuck Grassley (R-IA), and Mike Braun (R-IA) introduced a bill to legislatively define the “waters of the United States” (WOTUS), the term that Environmental Protection Agency has used to define what waters come under federal jurisdiction. “Regulations for what falls under ‘Waters of the U.S.’ have ping-ponged back and forth for years” Braun said. “Farmers and families need a reasonable, practical definition for WOTUS, and that’s why Congress should do its job and define the law.” Meanwhile, a group of Republican House Members expressed concerns regarding the Biden administration’s intention to undo the Trump Administration’s Navigable Waters Protection Rule in a letter to EPA Administrator Michael Regan.

Statement from AFBF on Executive Order

AFBF President Zippy Duvall commented Friday on President Joe Biden’s executive order addressing livestock markets and “right to repair.”

“AFBF notes President Biden’s effort to address several pressing issues facing America’s farmers and ranchers comes at a time when many in the farm supply chain are frustrated,” Duvall said in a statement. “Growing concern about livestock market fairness is accelerated by the continued rise in grocery store meat prices while ranchers struggle to break even on the cattle they raise, and poultry farmers being locked into agreements with very little recourse if they’re underpaid.”

Regarding “right to repair,” Duvall said, “Limiting who can work on a piece of machinery drives up costs and increases down-time. Ensuring farmers have the ability to perform cost-effective repairs on their own equipment will keep America’s farms running and financially sustainable.”

House Appropriations Committee Passes Ag, EPA Funding Bills

The House Appropriations Committee passed its fiscal year (FY) 2022 Agriculture Appropriations bill by a voice vote. The bill provides \$26.6 billion for discretionary spending programs while the total budget authority for the bill, including mandatory and discretionary spending, is \$176.821 billion. Two amendments were added to the bill during the committee markup—one to limit increases in line speed at poultry plants and one making it illegal for the Chinese government and its subsidiaries to own farmland in the United States. The latter amendment also makes the 192 million acres that the Chinese currently own ineligible for farm programs.

The committee on Thursday separately, and on party lines, passed its FY 2022 funding bill for the Environmental Protection Agency (EPA). The bill drastically increases EPA funding to \$11.34 billion, an increase of more than 20 percent. The bill also includes report language urging EPA to expedite its work on methods to measure air emissions from concentrated animal feeding operations. The House Appropriations Committee plans to wrap up FY 2022 committee work the week of July 12 in time for floor consideration prior to the August break.

Keith Zerr

May 1, 1958 ~ July 9, 2021

Keith Gerard Zerr, 63, of
Gove, KS, died Friday, July
9, 2021, at Gove County
Medical Center, after a
difficult and well-fought
battle with cancer. He was
born in Oakley, KS; the
fourth child to Peter C. and
Blanche Zerr.

Forever in a hurry to get
where he was going, he was
nearly born in the car on
the way to the hospital. As
a child, he enjoyed playing
games with his siblings and

cousins. Keith remembered
having very few toys in those
days, so they played many of
the 'classic' games—baseball,
football, Red Rover, kick-the-can,
tag, and hide-and-seek,
just to name a few. Keith's
favorite games were the ones
his sister, Lynette, just made
up, and of course, the miniature
farm that he and his brother,
Darren, created under the
backyard trees. Some of
Keith's favorite memories were
the family vacations with the
Joneses that covered almost
every inch of the state of
Colorado. Until his last breath,
Keith and his family were very
close. In addition to his three
brothers and one sister, Keith
had more than 70 cousins, and
each and every one of them
held a special place in his heart.

Keith graduated from
Wheatland High School in May
of 1976. From there he
attended Fort Hays State
University to pursue a degree
in agribusiness, which he
earned in 1980. Keith
returned home to continue
working with his father on
the family farm near Gove,
where he went on to meet
the love of his life, Jacky
Heier. They were later married
in May of 1986 and went on
to have five children.

Growing up, Keith
remembered his family
enjoying music—and soon,
music became a large part of
his life too. He first enjoyed
the piano and then the
saxophone. At Fort Hays
State, he was introduced to
his favorite instrument:
the guitar. Not counting
family and the Lord, this
hobby was the love of his
life. Through the years,
he played in several bands,
singing, and playing guitar,
and was lucky enough to
form lifelong friendships
along the way. Ultimately,
his passion and talent
earned him his nickname
"Keith Guitar Zerr"—which
stuck with him ever since.
His favorite guitar
experience was playing for
Mass at St. Agnes, and his
biggest regret was having
that cut short just as he was
getting the hang of it.

Keith felt very fortunate
to have had a successful
career in agriculture. This
labor of love was largely
successful because of his
loving and understanding
wife, Jacky; a wonderful
partner in his older brother,
Kevin; a solid foundation
laid by his parents and
grandparents; and finally,
the dedicated efforts of
his children.

Keith is survived by his
wife, Jacky Zerr, of Gove,
KS; his five children,
Jordan Zerr, of Cedar Falls,
Iowa, Jason (Whitney) Zerr,
of Grainfield, KS, Kenton
(Jennifer) Zerr, of Overland
Park, KS, Kaitlyn (Keaton)
Knott of Leawood, KS, and
Kirsten Zerr (fiancé Collin
Schmidt) of Overland Park,
KS; his grandchildren,
Liam, Eli, and Natalie Zerr
(Jason and Whitney's), Luca
and Noah Zerr (Kenton and
Jennifer's); his mother,
Blanche Zerr, of Quinter,
KS; and his four siblings,
Dennis Zerr, of Garden City,
KS, Kevin Zerr (Peggy
Huelsman) of Nemaha, KS,
Lynette (Terry) Steinbrecher,
of Denver, CO, and Darren
(Sherri) Zerr, of Baldwin City,
KS. Keith was preceded in
death by his father, Peter C.
Zerr and sister-in-law, Karen
Zerr.

Visitation was Monday,
July 12, 2021, at the St. Agnes
Education Center, Grainfield,
with a vigil at Funeral Mass
was Tuesday, July 13, 2021,
at St. Agnes Church Grainfield,
with Burial in the Grainfield
Cemetery. Memorials may be
made to the Grainfield
Knights of Columbus and sent
in care of Baalmann Mortuary,
PO Box 204, Oakley, KS 67748.
